

prefiguration of the condorcet campus
environmental design + aubervilliers 2010

program

sketches and reflections for the prefiguration of the condorcet campus and the "center for humanities and social sciences" in aubervilliers. to ensure -beyond operational actions- that all requirements for a quality university life are taken in account, the campus is conceived globally, integrating university buildings, streets, squares, the entry square, and the landscape that constitutes the surrounding environment.

governing authority

minister of higher education and research

financing

in the context of the "campus plan 2009", initiated by the minister of higher education and research.
